## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 35-42 are rejected under 35 U.S.C. 102(b) as being anticipated by Evans et al. (6,029,603).

Evans discloses a method of controlling ammonia from urine comprising applying a composition to an article, the composition including yucca species extract, as disclosed in column 3, lines 8-11. The composition comprises at least 0.01% yucca extract by weight, and less than 1.0%, in the teaching of up to 5.0% by weight disclosed in column 3, lines 10. The yucca species extract comprises yucca schidigera, as disclosed in column 3, line 9. It is noted the article is animal litter, which when in use absorbs urine adjacent the user's skin, and therefore fulfills the limitations of the claim.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 3761

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 35-42 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 4-6 of U.S. Patent No. 6,891,079. Although the conflicting claims are not identical, they are not patentably distinct from each other because while the claims are drawn to an article for controlling the production of ammonia, it would be obvious to one of ordinary skill in the art to use the wet wipe to treat urine held adjacent skin, since that is the intended purpose of the wet wipe.
